Instructions:

1. Since the budget estimates for 2022 are made up in July, 2022, the only valuation figure available is the rendered valuation reported by the assessor-collector. Budgeted tax rates and collections are based on this rendered valuation, but when the Commissioners' Court finishes the equalization hearings, the equalized or assessed valuation becomes available. The rates and collections can then be revised on the basis of the equalized valuation if desired.
2. The rendered valuation for 2023-2024 is \$2,881,165,782
The equalized valuation for 2022-2023 is \$ 2,881,165,782
The tax rates and collections have (have not) been revised on the basis of the equalized valuation.
3. The current tax collections budgeted for each fund are figured at 86 per cent of the taxes levied for each fund. (The levy equals the rate times the valuation used.) This calculation is based on 14 per cent delinquency and the deduction of 2 per cent of the collections as an allowance for the commissions of the assessor-collector.
